

Cascading Style Sheets & Specificity

Cascading Style Sheets & Specificity

Cascading

Multiple Rules can apply to the same Element

Specificity

Resolve conflicts arising from multiple Rules

Selector Hierarchy

Directly applied Styles win over Inheritance

```
p {...} > div {...} for  
<div><p>Hi!</p></div>
```

More specific Selector wins over less specific one

```
p.some-class {...} > p {...} for  
<p class="some-class">Hi!</p>
```
